viewpoints

SPRING/SUMMER 2016 • VOLUME 26 • NO 1

A MAGAZINE FOR ALUMNI AND FRIENDS OF THE UBC SAUDER SCHOOL OF BUSINESS

Future tellers
Sauder alumni, students and
faculty imagine what's ahead

CLASS NOTES

Guenther Jauck, MSc 2003

Following publication of my book *Potential Areas of Conflict in Mergers and Acquisitions*, I am pleased to present a new book *Cross-Border Mergers and Acquisitions with Global PMI Partners*, where I'm the Austrian Partner. The reasons for the book were that we found that executives were looking for practical guides to handle the complex task of integration. They want books that are rooted in the realities of execution, not based on theory or outdated concepts. *Cross-Border Mergers and Acquisitions* attempts to apply the same approach for handling global integrations.

The book is a compilation from 10 mergers and acquisitions (M&A) professionals who together have experience handling hundreds of cross-border transactions across dozens of countries. The authors bring perspectives on M&A from nine countries that represent the bulk of global M&A activity, including the United States, the United Kingdom, France, Belgium, Germany, Sweden, Israel, Japan and China. *Cross-Border Mergers and Acquisitions* is organized into four parts, each covering a wide range of M&A topics including M&A strategy, integration, due diligence, and culture to allow the authors to share their respective experiences, and allow the reader to gain several different perspectives on many key subjects.

Global PMI Partners is a global consultancy with focus on integration, separation and transformation. We offer local expertise with global support and use only highly experienced teams. We deliver better value and place the right experts on projects for hands-on efficiency. You can get the book from Amazon and from other well-equipped bookshops. Best regards from Vienna (Austria).
